

Dear Students,

Our normal way of life has been interrupted. We have had to cancel school for a bit. But, as you know, school is not the only place that you can engage your mind. Your teacher has put together activities, worksheets, books, and websites for you to do while we are on this extended break from school. Your teacher is in contact with your parents, and possibly you, to make sure that your questions are answered, your concerns are heard, and your thoughts are expressed.

This is a unique time for all of us. I want you all to know that the adults in your world are doing everything they can to make sure that you are cared for. Staying healthy is our top priority.

Staying healthy is a responsibility that we should all take seriously. Washing your hands regularly, eating a variety of high nutrient-packed foods, exercising, drinking water, and getting plenty of rest will help your body be at its best.

Finding times of joy is also important. Reading a funny story, listening to music, playing a game with a parent or sibling, watching a funny show or movie, and playing outdoors are a few ideas that can keep us laughing and smiling.

The Sharon Elementary School community will continue to find ways to help you grow into your full potential. Please ask questions if you have them. We are here for you. I look forward to once again seeing all you walk through our school doors in the future. For now, enjoy your time with family and keep those minds engaged!

Your Principal,
Mr. Haley
