

Sharon Principal Report

April 6, 2021

Strategic Plan Goal:

1) The WRVSU will form and sustain a comprehensive MTSS that:

- Utilizes evidence based best practices in instruction
- Utilizes student data to ensure student growth
- Encourages a rigorous, innovative and relevant learning environment
- Encourages the integration of PLP and Flexible Pathways to best meet the needs of all students.
 - **Students in 3rd through 6th are now taking the state standardized test (SBACs).**
 - **MTSS team is analyzing SEL data to inform decision making around Professional Development for this summer.**

2) WRVSU will implement a PK-12 Proficiency Based Learning System.

WRVSU school will utilize a comprehensive approach to ensure relevancy, rigor, and personalization. This will be achieved through the following:

- Curriculum
- Instruction
- Assessment
 - **Teachers will conclude their year long math Professional Development time with Loree Silvis on April 30th. Upon completion teachers will be asked to write a reflective essay on what they have learned, how their teaching practice has/will improve based on what was learned and what else it is they need to improve on in order to create an effective mathematics learning environment.**
 - **On May 7th, teachers will meet with Donna Isaacs to begin looking at student work and student data. Donna will guide us through protocols that we can use moving forward with this work. It is critical that we use protocols as a means for looking at work so that we view them without biases.**

3) The WRVSU will improve student learning and increase equitable

educational opportunities through the development of a culture that promotes interdependence among all stakeholders and enhances student achievement, choice and voice.

- **5th grade students are writing to myself, the school board and the PTO to express some of their desires for school improvement. Currently the writings focus on our playground and lunch program.**
